

JOACHIN AGU

Business & Data Analyst | Power BI | SQL | Excel | Python

 [Email](#) |  [Portfolio](#) |  [LinkedIn](#)

SUMMARY

Analytical and performance-driven Business & Data Analyst skilled in leveraging Power BI, SQL, Excel, and Python to transform raw data into actionable business insights. Experienced in building interactive dashboards, automating reports, and optimizing decision-making processes across business functions. Proven ability to deliver data-driven solutions that improve efficiency, uncover trends, and support strategic growth

CORE SKILLS

Technical Tools: Power BI, Excel (Advanced), SQL, Python (Pandas, NumPy, Matplotlib, Seaborn)

Data Management: Data Cleaning, Power Query, DAX, ETL, Data Modeling

Analytics Expertise: KPI Design, Dashboard Development, Reporting Automation

Business Focus: Business Intelligence, Financial Analytics, Data Storytelling

EXPERIENCE

Freelance Data Analyst

Remote | 2022 – Present

- Designed and implemented interactive dashboards in Power BI to track KPIs, automate reports, and identify business opportunities.
- Led data cleaning and transformation workflows using Power Query, improving data accuracy and consistency by 35%.
- Supported strategic decisions by providing data-driven insights into revenue performance, customer churn, and sales efficiency.

Data Analyst — Digital Dreams ICT Academy

Enugu, Nigeria | 2022 – Present

- Designed Power BI dashboards to track student enrollment, performance, and course completion metrics.
- Automated Excel-based reporting workflows, reducing manual data entry by 40% and improving accuracy.
- Conducted regular data audits to ensure data integrity and support program planning decisions.
- Delivered actionable insights on digital literacy growth trends and training program effectiveness.

PROJECTS

BMW Sales Analytics Dashboard (2010–2024)

Developed an interactive Power BI dashboard analyzing 14 years of BMW sales data to uncover trends in market performance, pricing, and product evolution.

- Built DAX-driven KPIs for YoY growth, regional revenue, and fuel-type segmentation.
- Highlighted BMW's shift toward luxury and sustainability across regions.

TELCO Customer Churn Analysis

Analyzed telecom customer churn data to identify drivers of revenue loss and retention opportunities.

- Created Power BI visuals for churn rate, revenue loss, and average revenue per user.
- Visualized customer segments and churn patterns using Power BI.

Data Science Job Market Analysis

Explored over 600+ job postings to uncover hiring trends, salary distribution, and top skill demand.

- Conducted EDA using Python (Pandas, Seaborn, Matplotlib).
- Visualized key insights such as top roles, skills, and salary distribution.

EDUCATION

B.Eng. Metallurgical and Materials Engineering — Enugu state University of science and technology (ESUT)

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Microsoft Power BI Data Analyst Associate (*PL-300, In View*)
- SQL for Data Analysis — Data Camp

ACHIEVEMENTS

- Delivered client-ready dashboards improving reporting efficiency by 40%.
- Recognized for data storytelling excellence through compelling business visualizations.
