Job description

Paystack is hiring a **Product Designer** in Lagos to craft intuitive experiences across our payment products. You will work closely with product and engineering to design flows used by businesses across Africa.

Responsibilities

- ✓ Design user flows, wireframes, and high-fidelity interfaces.
- ✓ Run usability testing and iterate on feedback.
- ✓ Maintain and extend the design system.
- ✓ Collaborate with product and engineering from concept to ship.

Requirements

- ✓ Bachelor's degree or equivalent practical experience.
- ✓ 2-5 years of product design experience (mid level).
- ✓ Strong portfolio across web and mobile.
- ✓ Proficiency in Figma and modern design tooling.
