Senior Backend Engineer Resume

demo.candidate@example.com | +234 801 234 5678 | Lagos, Nigeria

PROFESSIONAL SUMMARY

Backend engineer with 7+ years building scalable payment, fraud-detection, and settlement systems for high-growth African fintech platforms. Deep expertise in distributed systems, API design, database performance tuning, and cloud infrastructure. Proven track record mentoring engineering teams and shipping compliant, high-availability financial systems processing millions of transactions daily.

EXPERIENCE

Senior Backend Engineer

Feb 2022 – Jan 2026

Paystack

Led migration of the core payments API to a microservices architecture, cutting p95 latency by 40%.
Mentored 4 junior engineers and introduced code review standards adopted company-wide.
Built a real-time fraud detection pipeline processing 2M+ transactions daily.
Designed idempotent payment retry logic that reduced failed-transaction support tickets by 30%.

Backend Engineer

Jun 2019 – Jan 2022

Flutterwave

Built and maintained REST and GraphQL APIs powering merchant settlement across 8 African countries.
Introduced automated integration testing, raising deployment confidence and cutting regression bugs by 25%.
Optimized PostgreSQL queries and indexing strategy, reducing average API response time from 800ms to 220ms.
Collaborated with product and compliance teams to ship KYC verification workflows.

Software Engineer

Aug 2017 – May 2019

Andela

Developed internal tooling for client engagement tracking used by 200+ engineers.
Contributed to a Node.js/PHP hybrid billing system serving enterprise clients.
Participated in on-call rotation, resolving production incidents within SLA.

EDUCATION

University of Lagos

2017

in B.Sc Computer Science

ALX Software Engineering Programme

2019

in Backend Engineering Certificate
